Important feedback from the well-attended September 2019 Staff Clinician Professional Development Seminar clearly indicated a need for faculty development support for intramural Staff Clinicians. We have good news to share! Dr. Carl Hashimoto, Office of Intramural Research (OIR), is eager to expand his role to now include support of Staff Clinician professional development, in addition to his existing support of Tenure Track and Assistant Clinical Investigators. Dr. Hashimoto would like to announce the hiring of Dr. Rob Javonillo to support these efforts.

From Dr. Hashimoto: *I'm very excited to welcome Rob to our faculty development team in OIR. His academic background makes him an ideal partner in our efforts to support the professional and career development needs of the diverse NIH faculty communities. I envision that a major portion of his time and effort will be devoted to supporting Staff Clinicians, the NIH Clinical Faculty. Rob will engage directly with individual Staff Clinicians and also work in concert with the Staff Clinician Council. It is my sincere hope that Staff Clinicians will reach out to both Rob and I directly when seeking guidance for their professional development in the NIH IRP. Stay tuned for more information in 2021!*

Dr. Carl Hashimoto is Senior Advisor for Faculty Development in OIR and in the Office of Scientific Workforce Diversity. His principal responsibility in this role is to support the professional and career development of early career stage investigators in the NIH intramural research program. Carl was a faculty member for 26 years at the Yale School of Medicine, before retiring as Professor Emeritus of Cell Biology and joining the NIH in 2017. <https://oir.nih.gov/about/leadership-staff/carl-hashimoto>

Dr. Rob Javonillo is a Program Specialist and will work along with Dr. Hashimoto to support the design and implementation of a Faculty Development Program within the OIR. A key part of Dr. Javonillo's efforts will be focused on implementing faculty development support available for Staff Clinicians across all ICs within the NIH IRP. Dr. Hashimoto has shown a sincere commitment to supporting Staff Clinicians and we look forward to the contributions of Dr. Javonillo.

*****NEXT UP – 11/30 at 1:00pm Virtual SCC Professional Development Seminar Series*****

"Maintaining Productivity During COVID-19: A Panel Discussion for Staff Clinicians"

Please save the date for **Monday, November 30th from 1-2:15pm** for the first installment of the **Virtual Staff Clinician Council (SCC) Professional Development Seminar Series**. Meeting link to be emailed.

NIH STAFF CLINICIAN COUNCIL MISSION: Advocate for the professional development of NIH Staff Clinicians as clinician-scientists and to support their ongoing provision of high-quality and cutting-edge clinical care to NIH patients and research subjects. **Members:** Naomi O'Grady (Chair), Parker Ruhl, (Vice Chair), Debra Ehrlich (Secretary), Amisha Barochia, John Butman, Paneez Khoury, Mike Solomon

Next Election Spring 2021: Come get involved in charting the future of SC professional development and many other issues affecting Staff Clinicians across the NIH IRP
