NIH Staff Clinician Professional Development Committee presents

Don't just present data - move the audience.

Speaking for Success

Strategies for Effective Medical & Scientific Presentations

April 30 & May 1, 2026

1-hour seminar

- Engage expert, peer, and lay audiences (in person or on Zoom)
- Voice, inflection, & body language that hold attention
- Prepare well, manage anxiety, and deliver with confidence

Small-Group Presentation Skills Coaching (60 min)

- Groups of 3 with a speaking coach
- Receive targeted feedback on a 5-10 min long presentation of your choice
- Refine delivery, messaging, and slides

What participants say

"Highly perceptive ... practical, immediately actionable feedback ... helps you adapt complex topics for non-expert audiences."

"Insights can be immediately applied ... the time commitment is minimal ... bring a brief segment of a talk you already have."

Paul Casella, MFA

Professional speaker &
presentation coach
